SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Pursuant to 37 C.F.R §§ 1.56 and 1.97, applicants
hereby make of record the following documents in the
above-identified application:

May 1993, Vito Brugliera, *Digital On-Screen
Display - A New Technology for the Consumer
Interface*, 18th International Television
Symposium, Montreux, Switzerland, 10-15 Jun.

High-Score Screen from "Asteroids" by Atari,
bearing a copyright date of 1979.

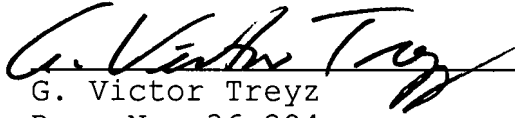

Copies of the aforementioned documents, which are listed on the accompanying Form PTO-1449 (submitted in duplicate) are enclosed herewith.

The enclosed High-Score screen from "Asteroids" was taken from the Atari Arcade Hits Volume 1 CD-ROM. For the convenience of the Examiner, a copy of the CD-ROM and its jacket are also enclosed. As described in the jacket of the CD-ROM, Atari Arcade Hits Volume 1 describes itself as "[p]erfect, authentic versions of 6 of the most popular, ground-breaking titles ever created." One of the games included on the CD-ROM is the popular title "Asteroids". Directions for installing and playing the arcade hits are also set forth in the jacket.

Asteroids presented the high-score screen when a player reached a certain score. The player would enter his or her initials using a "rotate" and a "hyperspace" button. The player could scroll through the alphabet to a desired letter by pressing the rotate button. When the desired letter was reached, the player would press the hyperspace button to enter the next letter. The player would then scroll through the alphabet for the next initial, and so on. After the player entered all three of his or her initials, Asteroids would save the high score.

Consideration of the foregoing in relation to this
patent application is respectfully requested.

Respectfully submitted,

G. Victor Treyz
